**RESPONSE TO NOTICE TO FILE CORRECTED APPLICATION PAPERS**

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

This RESPONSE TO NOTICE TO FILE CORRECTED APPLICATION PAPERS is offered to address the issues raised in the Notice dated November 16, 2001.

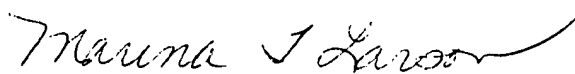

The Initial Patent Examination Division has objected to Applicant's drawings and asserts the drawings submitted are not in compliance with Rule 84(o) because they contain excessive text. Applicant respectfully submits that standard of what constitutes "excessive" text is one that must take into account the nature of what is being depicted. For example, in the present case, the drawings show what is displayed on a computer screen during use of the invention. These displays include text, as shown, but it is not "excessive" because it is necessary. Furthermore, Applicant submits that this is a technical determination to be made by the Examiner. An understanding of the subject matter of the invention must be realized before determining what text is excessive.

Certificate of Mailing under 37 CFR § 1.8: This paper and the attachments named herein are being deposited with the United States Postal Service with sufficient postage as first class mail and addressed to Commissioner for Patents, Washington, D.C. 20231 on December 7, 2001 by D'Arcy Straub.

*D'Arcy Straub*

Applicant respectfully requests that the Initial Patent Examination Division release the application to a technology center for examination by an Examiner.

Respectfully submitted,
